

Our Mission

To provide education, training, and certification to professionals in the field of Substance Abuse Disorders.

Our Vision:

To promote and participate in the development and recognition of professional standards and resources such as education, training, and certification for all professionals involved in the field of Substance Abuse Disorders.

Rev. 3-2018

Interested in our Mississippi Addiction Counselor Training (MACT) program?

The year-long program includes four core courses related to addiction counseling: Addiction Pharmacology, Counseling Theories, Counseling Skills and Counseling Process.

Upon completion you could be eligible to apply for the Intern Counselor Credential. Information is available at www.msaap.net.

Addictions Professional

CERTIFICATION GUIDELINES

Mississippi Association of Addiction Professionals is the only organization in the state that offers reciprocal certification for prevention specialists, alcohol & drug counselors, clinical supervisors, and criminal justice addictions professionals. Certification can be the most rewarding event in a counselor's professional life.

To become certified you must complete an application packet with a portfolio of your education, work experience and supervision for submission to the Certification Board. Upon approval, you will then be eligible to sit for the International Written Exam.

Once certified, you are automatically eligible for an International Certificate through IC&RC (International Certification & Reciprocity Consortium), of which MAAP is a proud member. IC&RC protects the public by establishing standards and facilitating reciprocity for the credentialing of prevention and addiction-related professionals. MAAP certified professionals have reciprocity with many international certifying bodies. For a complete listing of member boards, click on IC&RC's website, <http://internationalcredentialing.org>.

BENEFITS OF CERTIFICATION

Recognition for meeting specific predetermined criteria in order to assure that quality prevention and treatment services are available to the community

Provide a professional credential that can assist employers in selecting competent staff to work with the relevant populations

Reciprocity throughout the U.S. and other countries through IC&RC, with 78 member certification and licensing boards in 48 U.S. states and territories, four Native American regions, all branches of the U.S. military and 16 international regions. Representing more than 50,000 professionals, IC&RC is the global leader in the credentialing of prevention, substance use treatment, and recovery professionals.

CERTIFICATION REQUIREMENTS

Education: Defined as formal classroom education such as accredited college/university work; conferences, workshops, seminars; employer-in-services; online/home study courses. Such education must be related to the performance domains for desired credential. Education must include six (6) hours of Ethics Training and six (6) hours of HIV/AIDS Training. The MAAP Ethics class is mandatory for those applying for any of the MAAP Addiction Credentials.

Documentation is required for all education hours.

Supervised Practical Training (SPT): Defined as supervision, which seeks to teach the special knowledge and skills related to the domains appropriate to the credential for which applicant is seeking. Supervisor must hold IC&RC reciprocal equal to or higher than the credential applicant is seeking. Supervised Practical Training (SPT) Verification and Supervisor's Evaluation Form must be given to your supervisor, who has been acting in that capacity for at least six months and holds one of the following credentials: CADC, CADC I, CADC II, CAADC, CCS. For supervisors without the aforementioned IC&RC reciprocal credentials, prior authorization by Certification Board to supervise is required. Written request for authority must be submitted to the Certification Board by supervisor, to include copy of academic credentials, specialty and work experience.

Work Experience: Defined as supervised work experience, may be paid or voluntary, full or part-time, working directly with the population appropriate to the credential.
